

Illinois Engineered Products Xtra-Duty Folding Gates

new

Illinois Engineered Products' Xtra-Duty folding gates offer unsurpassed strength and protection in retail, transportation, government and community facilities. Floor-to-ceiling coverage in Xtra-Duty galvanized steel prevents unwanted access and provides traffic control when necessary.

- All Galvanized steel construction
- Single- and double-gate configurations available
- Twice the durability and security
- Folding top and bottom tracks offer superior protection
- Easy, one person operation and setup

Made to exact specifications, IEP custom-fabricates all gates to secure and protect openings of any size.

TOP	BOTTOM	STANDARD HEIGHT	MAX HEIGHT*	STANDARD WIDTH
Folding	Folding	Up to 7'-6"	8'-0"	up to 16'-0"
Fixed	Folding	5'-6" – 8'-0"	13'-6"	5'-0" – 20'-0"

Gates come in pair or single configurations and can be locked on either side
 Constructed of 3/4" channels spaced vertically not over 6" o.c.
 Lattice bars 5/8" by 3/16"

Xtra-Duty 14 gauge steel
 All moving parts fitted with rollers
 Hasp for padlock or cylinder lock
 Gate swings perpendicularly

**Gates can exceed maximum height and width with special modifications. Gates require three rows of lattice over 8' high and four rows over 10'-6" high.*

Call or FAX in measurements for a specific project and a qualified IEP Customer Service Representative will provide available options and a price quote.

IEP's Full Line:

IEP's exceptional-quality folding gates are constructed with a galvanized steel finish for superior strength and durability. Alternative finishes are available as noted, if desired.
