Matching existing color schemes in your facility is a breeze with IEP. Custom Powder Coating finishes are available for all gates in the above colors — *and more!* Contact us for your color consultation to satisfy your personalized palette.

A Galvanized Steel finish is standard for Single, Pair, Door and Portable Gates. Yellow & Black Powder Coating finish is automatically added atop the galvanized finish (standard) on Barrier Gates. Our high quality Powder Coat finishes are available for any product, with an additional lead time. The colors and gloss depicted here approximate the appearance of actual coating.
