

IEP PRODUCT SHOWCASE

Lockers: Add secure storage where you need it, with 5-tier steel mesh pre-assembled VUE™ Lockers.

Pallet Racks/Shelves: Limit access to inventory with heavy duty folding gates, sized to fit your needs with bottom guide or top-track styles.

Heavy Duty Dock Folding Gates: For dock doors, garages, and any large entryways, steel folding gates provide security while allowing air ventilation. Gates collapse and pivot out of the way for clearance of tracks and bollards.

Aisle Gates: create access control in retail or industrial settings. Custom sizes and colors available.

Garage Door Security: For dock doors, garages, and wide entryways up to 12 feet, enhance security with a heavy duty gate.

Gas Cylinder Storage: Protect your employees with the OSHA yellow Saf-T-Gas™ Cabinet.

Window Gates: Protect storefront or residential windows with single or pair heavy duty steel gates.

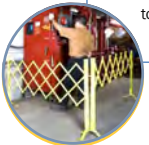

Hybrid Storefront Security Folding Gate: This super heavy duty steel folding gate is ideal for storefronts. Available with foldable bottom and/or tracks for your custom application.

Man Door Gates: Secure entrances up to 48" with a heavy duty steel gate that operates like a door.

Portable Aisle Gates: Create temporary access control anywhere that's easy to transport before and after use.

Portable Heavy Duty Gates: Section off areas with heavy duty folding gates that can roll through any doorway. Add-on Gates allow you to control access in any size opening.

Barrier Gates: Secure areas with portable rolling gates, ideal temporary solutions for industrial or retail safety or security.
